CRAFTSMANSHIP & ARTISTRY SINCE 1912

Preserving Memories Beyond Imagination!

Our Craftsmanship package is designed to take pieces of your loved one's life and help create a story that was once lived or dreamt of. We will create your story on a beautiful piece of granite that will be around for hundreds of years.

Do you have special memories and want to create your story in stone? By sending us your ideas and/or photos, we will create a unique custom design to tell your story.

Each of our granites has its own unique color, character and structure. Mother nature has made sure that no two stones are exactly alike, much like a finger print, cast permanently in polished stone.
